Total circulation for year,	5,251
Number new borrowers added,	41

Deposit station maintained at East Alstead.

HELEN M. KIMBALL,
Librarian.

REPORT OF SUPERINTENDENT OF SCHOOLS

I have the privilege to submit to the School Board and citizens of Alstead my second annual report on the doings of the schools.

Some general statistical remarks may be in order to show just what the running conditions are. The total number of pupils registered last year was 126. Of these 15 had been registered in some other public school in the state before coming here. Seven had been registered in a private school previously. Of the 104 who were with us from beginning to the end of the year 62 were boys and 42 were girls. The attendance of these was for the town 91.3 per cent. A figure that compares well with that of the state reports. Schools were actually in session 171.8 days on an average for the town out of the 180 possible from the 36 week school year. The legislature and tradition will have to be blamed for the loss of 8.2 days of the school year. There were 122 visits by the superintendent; 231 by citizens and five by members of the school board.

The Center school house was shingled during the summer and this with toilets which are now in good shape, and the interior refinished, makes the building as good and better than the average. The Forrestall school needs attention around the wood shed and toilets. The East Alstead school building is badly in need of shingling.

There seems to be need for a school building in the South Woods district near the Mica mines There are now 15 children above six years of age and some younger ones that will soon

enter school. This year there are 10 being transported to the East Alstead school at an expense that would about hire a teacher but would not pay for the overhead charges incident to maintaining a school. A building 25 by 30 feet ought to accommodate this number of children. Possibly a smaller one would but it is well to guard against building too small.

Some difficulty was met in trying to get teachers this last summer. The prevailing desire among young normal school graduates was to get into graded or village schools. The greatest trouble seemed to center about the East Alstead school and we were obliged to make use of a normal school student until a teacher could be found. The teacher found is doing good work in this particular school with many large boys. This might be said of all teachers. In my talks with some citizens there seems to be a feeling that teachers were getting by with just as little work and putting in just as little time as possible. Such is not the case and herewith I wish to very emphatically testify to the interest of the teachers in your children and to their integrity in all work. Let us help build rather than destroy.

Standard tests have been given in the fundamental subjects. Where deficiencies have been found we have laid stress on those points. Spelling books have been placed in the hands of all pupils as well as the standard Ayers scale for measuring the achievement. Handwriting measuring scales are in all schools and an earnest effort is being made to teach and have practiced, a good, legible form of handwriting.

Children need some sort of warm food at the noon hour, especially in the winter months. Some parents have cooperated wonderfully well in this regard and it is a good testimony to their foresight and desire to see to the welfare of their children to an exceptional degree. Others may desire as much but action is what counts. Teachers are willing to help pupils in preparing anything they may bring in. There is a teacher in

every school during the long noon hour to supervise the play and luncheon.

Medical inspection will count for as much as people wish to make out of it. It needs to be followed up by the parents and an effort made to check the things to which attention is called.

Allow me in closing to thank the pupils, teachers and School Board for their confidence and support as well as the many substantial citizens who have offered constructive criticisms.

Respectfully submitted,

WILLIAM J. ENGLISH.

SCHOOL BOARD'S REPORT OF SCHOOL YEAR
